

TRILLIUM HUNTER JUMPER ASSOCIATION

Points Process for Trillium Championships in 2023

“The 2023 Tour”

The THJA will be accepting points collected anywhere in Ontario at Trillium Shows towards Trillium Championships qualification.

How does it work?

Declare your **home zone** by purchasing a membership in the zone you wish to represent on the **Trillium Championship Points** system. Membership is now open for 2023!

Home Zone: This is the zone you will represent at Trillium Championships. You must show 50% of the shows offered in your home zone, but may travel to any other Trillium competitions in the province to collect additional points towards qualifying for Champs. You may also stay within your home zone and collect points close to home if you prefer.

Trillium Championship Points: New this year! The THJA will maintain a central points list that will reflect each member’s standing in the organization as a whole. Each zone will still receive seven spots per division, but in the event that all spots do not fill the remaining spaces will be offered to the next highest ranked competitor based on the central points system regardless of their zone until all available spaces (up to 49) are filled.

Note

Zones will be able to set their own requirements for zone and banquet awards.
